

USING COUNTER REPORTS

TWO FORMATS

JSON

- Machine readable
- Accessed via SUSHI servers

Tabular

- Human readable
- Accessed via publisher websites

Key points

- ✓ Standard structure
- ✓ UTF-8 encoding to preserve special characters
- ✓ Tabular reports in .tsv or .csv to work in any spreadsheet tool

SPREADSHEET TOOLS

- ✓ Use the COUNTER Reports for maximum flexibility
- ✓ Check out the *Working with COUNTER Reports in Excel* class on our Media Library
- ✓ Excel has great on-board training and help tools

Filtering

- Rearrange data
- Exclude attributes

Pivot tables

- Rapid summaries
- Visualization

THE COUNTER SUSHI API

- ✓ Find the details on registry.projectcounter.org
- ✓ Log in with your customer id
- ✓ Add the right endpoint...
